The same process la going on in Missouri, Kansas, and Arkansas also—all in secret.

In spite of the extraordinary pension expenditures voted by an extravagant Republican minority and a few demagogues of the majority, the public debt is diminishing at a rapid rate. The reduction of almost cleven million dollars for April is at the rate of about one hundred and thirty million dollars a year. At the same time public expenditures are we colored people were property, because the law made us property; now we cause the law made us so. Bear in mind that with the strike in full blast Terrell took the stump for sen-ator in a great anti-monopoly speech at Austin. As soon as Judge Pardee sen-tenced a striker for contempt of court, Blarney Gibbs had his brief and argu-ment ready for the newspapers, ready to lay grounds for the judge's im-peachment.

There is no surplus, but a real lack, of labor in the Southwest. Gov. Ireland made an appeal for emigration in the magazines last winter. Wages are higher than they ever were on a gold basis. The necessaries of life are cheaper than they ever were. Jay Gould's roads pay as political stroke, engineered by dark-lantera committees and subterranean politicious and the strike is kept up con-trary to the wishes of the better class of Knights and farmers and Good Templars and good Democrats, because their leaders have got where they cannot back out without the complete ruin of all their outsit. But just pricking this bubble will burst it. This is not communist soil.
